# A very warm welcome to Broome...

Nestled on the pristine untouched coastline of Western Australia Northwest Coast, Broome is a destination like no other. Broome's captivating tropical location, unique geography, and awe-inspiring natural events combines with an eclectic cultural mix to create this isolated tropical island like oasis that attracts adventurers and dreamers alike. From the mesmerizing Staircase to the Moon to the sublime nightly sunsets that fade to the night's celestial skies, Broome offers several natural experiences that will leave you lost for superlatives and longing to witness again.

Broome is a place where the rust red pindan soil of the outback meets the vibrant azure blue waters of the Indian Ocean. Broome's geography is a tapestry of contrasts, boasting towering red cliffs, endless stretches of pristine silky white sand beaches, and azure blue waters that seem to beckon you to explore their depths and the hidden riches. Immerse yourself in the raw, pristine untouched landscapes that define this coastal tropical paradise.

But it's not just the scenery that will leave you spellbound. Broome is world renowned for its natural events that unfold like a symphony orchestrated by Mother Nature herself. Witness the Staircase to the Moon, a breathtaking phenomenon where the full moon rises over the exposed mudflats, creating an optical illusion of a celestial staircase. It's a spectacle that will transport you to another world, a moment frozen in time.

As the sun sets over the Indian Ocean, be prepared to be captivated by Broome's nightly sunsets. The sky dances with deep hues of orange, pink, and purple, creating a kaleidoscope of colours that paint the horizon. Stroll along Cable Beach, feel the sand beneath your toes, and let the beauty of nature wash over you or ride the waters edge on Camel while the sunsets.

And when the night sky unveils its celestial wonders, Broome reveals its true magic. Far from the bright lights of the city, the Milky Way shines brightly, illuminating the heavens above. Gaze up at the stars, lose yourself in the vastness of the universe, and be reminded of the boundless possibilities that lie above you. Just lay on you back and look up and watch the whole universe wash over you. The evening skies are more than a sight to behold; They are a moment of tranquility, of reflection, and of wonder. They invite you to pause from your world and consider theirs, reminded of the vastness of the cosmos and our role in it.

Broome's experiences one of the largest tidal ranges in the world averaging around 10-11 metres influenced by the moon's gravitational pull, create an ever-changing landscape. Experience the thrill of watching the ocean retreat during low tide, uncovering hidden treasures and revealing the secrets of the deep. Let the ebb and flow of the tides guide you on a journey of exploration and discovery.

So, come and embark on an extraordinary adventure in Broome, where the full moon performs 3 nights a months and tides choreograph nature's symphony, where the sun paints the sky with its vibrant pastel hues until finally fading to black. Let this coastal oasis embrace you in its natural wonders that will leave you with memories that will remain with you a lifetime.

The Country, the feeling; There is nowhere else like it in this world. You're always guaranteed a warm welcome in Broome.

An unforgettable natural phenomenon occurring from March to October each year. Spawned from the brilliant amber glow on the horizon of the slowly rising full moon as its beam reflects across the recently exposed wet rippled tidal flats on ebb of Broome's massive Spring tides. The combination and timing of these two natural events creates an optical illusion of a widening golden staircase that leads all the way from Town Beach foreshore to the moon.

# Please, Look before you Book!

A small action from you could make a big difference to Broome. Broome is a small seasonal coastal country town that comes alive every year from April to October. And every year travellers spend their hard-earned booking accommodation and tours prior to arriving in Broome, which is always recommended.

Our Broome Visitor Centre is a great way to plan and book your perfect holiday, and will happily arrange a full itinerary to your specifications. But generally these days it's DIY via phone or computer.

With Broome as your destination you:

- Book flights
- Book accommodation
- Book activities and experiences

Generally in that order.

Booking platforms like Booking.com, Agoda, Expedia and the like charge 15-30% commission, or even more!

So, we ask you to please consider before you book with them.

Scroll sites for price and location and once you've made your decision on where to stay or what to do, visit their website and book direct.

That way 100% of your booking cost will be supporting local businesses, increasing their margins. This in turn filters money through the Broome economy and returns taxes to Australia rather than sending 15-30% of what Broome businesses generate, off to some tax haven. It may even drive costs down.

Booking platforms are easy upfront, but if something goes wrong, who would you rather be talking to and trying to find a quick resolution? Your hotel reception and local tour operator or some overseas Call Centre? Save yourself the drama, book local and maximise the benefit of your visit to Broome. In return we will go out of our way to make things easy to fix if they don't go quite to plan.

We would much rather be dealing with you direct, than directing you to whoever you made your booking with. Because these agents are paying the hotel or tour operator, all instructions come from them not you.

Please book direct, or book in Broome and we will ensure you have a relaxing and enjoyable visit and guarantee you a warm welcome. Or start your Broome search with www.destinationbroome.com.au and follow the links to all that Broome has to offer.

Immerse yourself in the story of the Australian Pearl with a day trip or overnight stay. Just two hours north of Broome

# The invisible virtues

In today's pearl market, the invisible virtues of a pearl are important to consumers. These include transparency around the source of origin, details of the journey from the pearl oyster from the farm, right through to market, the disclosure of any chemical treatment or enhancement, and the sustainability and ethical practices of everyone involved.

Pearls of Australia, in partnership with Provenance Proof, now offer blockchain enhanced disclosure of these virtues in a world-first for pearls.

We are deeply committed to transparency, understanding and disclosing every visible and invisible virtue through education and experience.

Immerse yourself After generations of farming the world's finest pearls, we've come to learn first-hand through tireless efforts, that every pearl has a story. Join our experts at Cygnet Bay Pearl Farm and on our Broome experiences as we guide you through the story of the Australian pearl from Indigenous beginnings to our modern-day farms, and learn all about the iconic industry that built Broome.

Supporting local Although Broome is known for pearls, there are only a couple of farms left in the region. Cygnet Bay Pearl Farm has been in pearling for over 77 years and is a third generation family-run business. A Broome pearl today, is a rare gem on the global market. We only sell the pearls we

grow – and that's our promise to you. The sustainable gem

Pearls are the only rare and precious gem on the planet today born within a living organism – the oyster. Pearling provides multiple services to the surrounding ecosystem and communities. This includes employment, education and empowerment for people, and extends to the protection of mangroves, seagrass and saltmarsh, the most efficient carbon sequestration substrates (Blue Carbon sinks) on the planet.
